EDUCATION

Higher Institute of Applied Sciences and Technology of Sousse   **Tunisia**
Bachelor's Degree in Computer Science   2021-2024
Relevant Coursework: Software Engineering; Operating Systems; Algorithms; Databases

PROJECTS

Todo Mobile Application (Github Repo)   **Nov 2023**
- This Android application provides a user-friendly platform for managing tasks while incorporating authentication and local storage mechanisms for enhanced security and data persistence.
- The app has a French and an English version.

GDSC Discord Bot (Github Repo)   **Jan 2022**
- A private general-purpose Discord bot made to organize the Discord server of a volunteer activities club.

Schedule Scrapper (Github Repo)   **Nov 2022**
- A web application that fetches schedules and checks for available classrooms on a given day and session.

Library management system (Github Repo)
- This is a RESTful API and a landing page for managing a library of books, built with Django and Django Rest Framework. It allows you to add, update, delete, and read books from a database of books. Each book is modeled with a title, author, genre, publishing year, pages, chapters, and link to read it.

Yoink Yoink (Itch.io)   **Mar 2021**
- A Unity game I developed called "yoink yoink" can be played in a browser or downloaded; it supports local multiplayer.

ACTIVITIES AND LEADERSHIP

Google Developer Student Clubs - ISSATSo   **Sousse, TN**
Technical Lead (GDSC Platform)   Aug 2022 – Jul 2023
- Planned and executed Git Basics 101 Course (Still in production)
- Develop a Discord bot to manage our server
- Hosted workshops on how to develop your own Discord bot.

SKILLS AND OTHERS

- **Technical**: Python (Discord API, Pandas, NumPy, Django, Flask, etc…), C#, Docker, Git, SQL
- **Online Courses and Certificates:** Google IT Automation with Python by Google on Coursera, Microsoft Certified: Azure Fundamentals, Qwiklabs GCP tracks, CCNA: Introduction to Networks, Foundational C# with Microsoft, Docker for the Absolute Beginner - Hands On
- **Hobbies:** Swimming
